Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description:

2. Reference number 100 mentioned in the specification is missing in Fig. 1. Reference number 300 mentioned in the specification is missing in Fig. 3A. Reference number 500 mentioned in the specification is missing in Fig. 5.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 1-32: Claims 1-32 comprise the limitations as of "receiving voice traffic at a VoIP gateway" and "multiplexing said voice traffic at the said VoIP gateway". The specification and drawing only disclose the steps of "determine whether a destination is serviced by a second VoIP Gateway" (See Fig. 3) and ITU-T H.225 call flow chart for call setup and disconnection (See Fig. 6). The specification and drawing fail to disclose the essential steps and data structure of "receiving voice traffic at a VoIP gateway" and their relation to "multiplexing said voice traffic at the said VoIP gateway". Therefore, the specification fails to teach one skilled in the art how ^{to} ~~to~~ make and use the claimed invention without undue experimentation.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 16 recites the limitation "... of claim 13, said UDP/IP packets..." in line 16, page 16. There is insufficient antecedent basis for this limitation in the claim.
